

## Level One Audiology Provider Facilities

**This list was compiled from a survey sent to audiologists by the Early Hearing Detection and Intervention Program (EHDI) to facilitate families and professionals in finding services for children. The facilities were ranked by equipment available for infant testing (recommended by JCIH and NCHAM) and reported by survey responses. These facilities have the appropriate equipment to provide diagnostic audiology services for newborns and young children to determine hearing status. The quality of services provided and/or the levels of experience of providers at these facilities were not reviewed and this list is not an endorsement by the EHDI Program.**

Advanced Hearing Care  
1827 N Madison Ave. Suite C  
Anderson, IN 46011  
(765) 608-3277
